NAVAL POSTGRADUATE SCHOOL

COMMENCEMENT CEREMONY

"The best and brightest military officers from the United States and around the world come to the Naval Postgraduate School in Monterey, California, to work with world-class faculty on real military and defense problems. At NPS, they gain both the intellectual know-how and the practical skills for improving defense technologies, systems and programs."

*-Former President of the United States
George H.W. Bush*

“The Naval Postgraduate School is a national – and international – treasure. With its rigorous curriculum, talented faculty and a diverse student body that includes students from all the U.S. armed forces, other federal agencies and more than 60 nations, NPS contributes greatly to enhanced joint, coalition and inter-agency effectiveness. Knowledge and imagination are the keys to dealing with the challenges of this new era, and here at NPS those keys are forged. The School rightly boasts an illustrious past, but I am convinced that its future burns even brighter.”

Admiral Michael G. Mullen, USN
Chief of Naval Operations
NPS, Class of 1985
Operations Research

“The battlefield of today and the battlefield of the future are going to continue to be uncertain, chaotic, plagued with fog and friction, and very dangerous. We need military leaders who can work and thrive in that particular environment. An NPS education, bolstered by student and faculty research, produces a graduate whose intellectual agility and flexibility will prove increasingly valuable to the naval services and the Joint force in dealing with such uncertainty.”

General Michael W. Hagee, USMC
Commandant of the Marine Corps
NPS, Class of 1969
Electrical Engineering

NAVAL POSTGRADUATE SCHOOL

The Naval Postgraduate School provides an unparalleled learning and research environment. NPS is a place where operationally experienced officers from the joint services, civilians from various defense and homeland security organizations, and international students from nearly 60 countries come together to learn from, and work with, a world-class faculty focused on global security issues vital to our national security strategy.

The institution is responsive to rapidly emerging and ever-changing strategic and tactical requirements. Curricula are rigorously tailored to meet the nation’s changing defense needs, while simultaneously maintaining the same high accreditation standards as civilian universities.

An NPS education extends far beyond the Monterey campus, reaching warfighters both at sea and in the field, engineers in defense laboratories, and international participants who are enrolled in distributed learning and professional education programs throughout the globe.

On any given day faculty and student research addresses critical real-world requirements relevant to combatant commander and warfighter needs through a unique integration of government agencies, commercial enterprises, other notable research universities and our allies.

An NPS graduate has the intellectual know-how and the practical skills to make the most of today's resources. NPS graduates are the cornerstone for developing tomorrow's defense technologies, systems and programs.

The individual schools are accredited by the Western Association of Schools & Colleges, the Accreditation Board for Engineering & Technology, the Association to Advance Collegiate Schools of Business and the National Association of Schools of Public Affairs & Administration. Additionally, The North Atlantic Treaty Organization has recognized NPS as an Alliance-wide Partnership for Peace Education and Training Center.

... Master your future.
